SUMMARY

I am a dedicated full-stack .NET developer with expertise in C#, ASP.NET MVC, Entity Framework, and ADO.NET. I excel in working with MS SQL Server and have strong skills in HTML, CSS, and JavaScript. With a passion for creating efficient and innovative solutions, I thrive in dynamic environments and am committed to delivering high-quality work.

EDUCATION

G. H. Raisoni College of Engineering B. Tech(CE) - CGPA - 7.4

2019 - 2023

Vidarbha Buniyadi Jr. College Intermediate - PCM - **Percentage** - 53.4%

2016 - 2018

Nagpur, Maharashtra

Nagpur, Maharashtra

Vidarbha Buniyadi High School

Matriculation - Percentage - 82.6%

2016

Nagpur, Maharashtra

TECHNICAL SKILLS

Languages: C#, MsSQL, HTML, CSS, JavaScript

Technologies/Frameworks: ASP.NET MVC, ADO.NET, Bootstrap, Ajax/Jquery, Entity Framework

Developer Tools: Visual Studio, VS Code, SSMS, GitHub

PROJECTS

Patient Management System 🗷 | ASP.NET MVC, MsSQL, C#, ADO.NET, HTML, CSS, Javascript, Bootstrap 20

2024

- Engineered a robust web application for streamlined patient management and healthcare services utilizing ASP.NET MVC, MS SQL, C#, ADO.NET, HTML, CSS, JavaScript, and Bootstrap.
- Architected and integrated key functionalities including patient registration, appointment scheduling, medical records management, and secure data storage.
- Optimized application performance by utilizing stored procedures in MS SQL Server for complex database operations.
- Implemented server-side and client -side validation to ensure data consistency in the database.
- <u>Github</u> <u>Demo</u>

Text-to-Speech Application 🗷 | ASP.NET MVC, C#, System.Speech, JavaScript, jQuery, AJAX, Bootstrap

2024

- Developed an **ASP.NET MVC** application using **System.Speech** namespace in **C** which convert text input into speech.
- Asynchronous controller actions for smooth text-to-speech playback and pause/resume functionality.
- Incorporated AJAX requests to communicate with the server-side controller actions, enabling seamless playback control without page refreshes.
- Github Demo

2024

- Developed an **ASP.NET MVC** application that converts text input into speech using the **System.Speech** namespace in **C**#.
- Implemented asynchronous controller action methods to handle text-to-speech playback and pause/resume functionality.
- Incorporated AJAX requests to communicate with the server-side controller actions, enabling seamless playback control without page refreshes.
- Github Demo

CERTIFICATIONS

- HackerRank SQL (Basic)
- Cambridge Business English Certification
- Python Core
